IV. System Design

1. Each applicant shall describe in narrative form the existing or contemplated system design concept indicating initial construction proposed and the development and extension of the system within the franchise boundaries over the period of the proposed municipal consent. Information should also be provided concerning:

- (a) Extent to which two-way capability will be available initially and what provisions will be made for future development.
- (b) Total signals to be carried and any auxiliary equipment to be provided to subscribers.
- (c) A description of the methods to be employed for securing premium services and the extent that subscribers will be required to use equipment supplied by the applicant to receive those services.
- (d) In the case of a renewal, the extent to which the applicant will rebuild or upgrade the system, or extend plant into previously unserved areas. Provide estimated dates of commencement and completion. Indicate what will be replaced.

System Design Narrative

The current cable television distribution system is 750 MHz in a hybrid fiber-coaxial, fiber-to-digital-node design. The entire system is inherently two-way capable. The return path has been activated and is being used to provide high-speed Internet access, and for digital video, Video On Demand, High Definition television (HDTV) services and Comcast Digital Voice.

All video channels are transmitted in digital. The number of channels and bandwidth required will be a function of the services carried. To receive digital channels, customers must have compatible equipment. Standard definition digital channels require a digital converter, cable card or digital adapter to view. Video On Demand requires a digital converter to view.

All services are secured using digital encryption and require digital equipment to view.

Comcast has completed an upgrade of the distribution system. The upgrade entailed the deployment of advanced fiber optic technology in a hybrid fiber/coaxial cable architecture with fiber to digital nodes. Customers experience enhanced picture quality and greater system reliability as the result of this upgrade.

2. Provide the following information concerning Standard or FM broadcast radio stations carried by applicant (If all-band FM, write "all-band").

N/A

3. Provide information as to the number, cable channel designation, type of access channels and their manner of operation, including proposed date for commencement of services and channel sharing.

A public access channel serving customers in the portion of the system that lies in the NY ADI is on Channel 28. A system wide leased access channel is on Channel 190. A dedicated government access channel is on Channel 26.

4. Each applicant shall title by category and list the following information concerning program origination;

<u>Type</u>	<u>Proposed Inception</u>	<u>Cable Channel Designation</u>
Leased Access	In Service	Channel 190
Government Access	In Service	Channel 20
Brookdale College	In Service	Channel 21

5. Provide information, in narrative form, regarding production equipment and facilities to be made available by the applicant for its own use and for the use of others in the community. Describe by type (do not use brand names) and number, indicating when equipment will be available.

Note: Some production equipment may be made available for use by access channel users. See Guide to the Writing of the Cable Television Municipal Consent Ordinance for further information.

Not Available

6. Each applicant shall describe, in narrative form, any other services available to subscribers. Such description shall include, but not be limited to, the applicant's capability to contract with the community for such services as emergency override, interconnection of schools or local government offices, and availability of equipment and technical advice to the community.

The Company is fully capable of contracting with the community for school and government office interconnection. Emergency override is accomplished via compliance with State and Federal Emergency Alert System (EAS) guidelines.

Note: Provision of free services and equipment are limited by the F.C.C. and the Office. See Guide to the Writing of the Cable Television Municipal Consent Ordinance for background information.

------------------------	---------------------	-------------	--	----------------

- (f) Describe method and results of interference survey:

- (g) List any and all other existing conditions which impact on picture quality .
(i.e. existence of electrical interference).

3. Microwave.

- (a) Is microwave to be used? Yes No
(transmitted or received)
- (b) If yes, complete the following:
- (1) Signal to be received from
Path distance
- (2) Retransmitted to
Path distance
- (3) If facilities are to be leased give the name and address of lessor.

4. Head End.

- (a) Signal processors
- (b) Base band modulators
- (c) F.M.
all band single channel (number of channels)(mfg.)
- (d) Mixing method _____
(passive or electronic)
- (e) Pilot carrier frequency(s) _____
- (f) Block tilt N/A Yes No If Yes, (db's)
- (g) Pass band filters used N/A Yes No
- (1) Designate type
- (2) Channels used on

5. Hub Sites.

If a hub site is used to deliver signal, indicate the location of the site and the method by which signal is delivered to it.

VI. System Plant

For a renewal indicate: _____ existing, ___ proposed.

1. Fill in the following:

Aerial Underground

(a) Trunk and Distribution _____miles _____miles

(b) Mileage determined by the following method:

System Design Prints

2. Rate of annual construction (in terms of total primary service area).
(New systems, rebuilds and extensions)

N/A

3. Attach as an appendix a technical description of proposed system; including equipment to be used, use of standby power supplies, utility bonding methods, and the overall capabilities of the system.

N/A

4. Attach as an appendix a map of the entire municipality with borders designating the following:

(the scale shall be approximately 1000 feet/1/2 inch or larger)

- (a) Coaxial cables.
- (b) Optical node and amplifier locations.
- (c) All streets which are to receive service; designating aerial and underground separately.
- (d) Phases of construction.
- (e) All streets which will be served under a "Line Extension Policy."

Note: The map(s) must show inter-municipal connections.

5. Cable. (existing)

Type

- (a) Trunk (HF/C)
- (b) Distribution
- (c) House drops

- (d) If cable is not jacketed, what tests were made to determine that there were no corrosive properties in the atmosphere?

N/A

6. Equipment.

Manufacturer

Model

- (a) Fiber Optics
- (b) Amplifier
- (c) Line Extender

7. Grounding.

Will your system be grounded and bonded in accordance with the applicable provisions of the National Electric Safety Code (NESC) and National Electric Code (NEC)?
() Yes () No

8. Is fiber optic technology in use or proposed? ()Yes ()No. If yes, please explain.

VII. System Design Standards

1. For ___ channels downstream and _____ channel upstream.

2. System spacing:

- (a) Fiber Optics
- (b) Trunk
- (c) Distribution

3. System Architecture:

- (a) Node + 5 RF Actives
- (b) All AGC Output Tilt 10 dB

4. System signal level at subscriber's terminal. (maximum cascade)

- (a) At highest frequency video carrier
- (b) At channel 2 video carrier
- (c) Channel 2 video carrier will be

5. Within the passband, the theoretical system design performance will be equal to or better than:

<u>Fiber Optic Plant</u>	<u>RF Distribution Plant</u>	<u>Total System</u>
(Total Fiber)	(Coax Only)	(Combined EOL)

- (a) Video carrier to noise ratio
- (b) Carrier to Composite Triple Beat
- (c) Carrier to second order beat ratio
- (d) gain to frequency response across any 6 MHZ TV channel
- (e)
- (f)
- (g) R.F. Leakage
- (h) Will your system meet or exceed the F.C.C regulations limiting R.F. energy leakage permitted by CAT systems as set forth by F.C.C. Rules and Regulations, 47 CFR 76.1 et. seq.? () Yes () No

- (i) (1) Are converters to be used? () Yes () No
- (2) If yes, Type Mfg.

(a) Signal processors _____

 (number) (model) (mfg.)

(b) Base band modulators _____

(j) Premium service security method: _____

- (k) (1) Amplifier power source
- (2) Is standby power to be used? Yes () No ()
- (3) If yes, where?

6. Equipment specification sheets

- (a) Provide, as appendices to this section, copies of all specification sheets.

Note: List the following information for each specification sheet:

- (1) Manufacturer
 - (2) Model Number
 - (3) Name of Equipment
 - (4) Manufacturer
 - (5) Model Number
 - (6) Name of Equipment
-

- (b) Provide, as appendices to this section, system construction specifications.

IX. Line Extension Policy

Note: The Cable Television Act requires the applicant agree to cable the entirety of the franchise area. The applicant is not required however, do so under all circumstances or at its own cost. The primary service area is the section of the community where residents are provided service at normal rates and charges. Sections outside the primary service area may be governed by a line extension policy delineating the terms and conditions by which service will be provided. For further information, see Guide to the writing of the Cable Television Municipal Consent Ordinance.

While service is currently available to the entirety of the municipality, Comcast will apply the Office of Cable Television's (OCTV) Line Extension Policy (LEP) should any future situations warrant. Comcast adopts the OCTV's LEP as attached with a density threshold of 35 homes per mile (HPM).

X. Rates

SEE APPENDIX

(all applicants; renewal applicants should indicate if information contained herein differs from current rates)

1. Provide the following information with reference to rates for service:
 - (a) Residential
 - (1) Installation
 - (a) Definition of Standard Installation and/or nonstandard installation:
 - (b) Rate for Standard Installation: plus tax;

- (c) Rate for Non-Standard Installation:
 - (2) Monthly service - include basic, premium and packages or tiers.
 - (3) Rental charges for any required ancillary equipment
 - (4) Other

- (b) Hotel, motel, rooming house
 - (1) Installation
 - (2) Monthly Service Charges
 - (3) Rental charges for any required ancillary equipment
 - (4) Other
 - (5) If rates are set by contract list general terms and conditions which would be applicable to potential customers.

- (c) Commercial Enterprise
 - (1) Installation
 - (2) Monthly service charges
 - (3) Rental charges for any ancillary equipment
 - (4) Other - include restrictions on premium services

- (d) Apartment, condominium, cooperative, multiple unit dwelling
 - (1) Installation
 - (2) Monthly service charges
 - (3) Rental charges for any required ancillary equipment
 - (4) Other

- (e) List and describe all advertising rates
- (f) List and describe all leased channel rates.
- (g) List and describe all equipment and personnel charges.
- (h) Do any of the above rates and/or terms and conditions of service differ from the existing ones? Yes () No (X) If yes, please explain.

XI. Financing

Upgrade has been completed

(New applicants; renewal applicants must complete only if rebuild and/or upgrade is planned or if areas of the original territory are not yet built).

1. Estimate the capital requirements for construction of the proposed system including but not limited to estimates as to the transmission system and distribution and drop cable, office equipment, studio equipment, vehicles, telephone and power pole make ready, converter costs, administrative and technical personnel, wages and bonuses.

	<u>Years</u>				
Pre-operating Period	1	2	3	4	5

2. Describe the sources of funds to be provided.

				<u>Years</u>		
Pre-operating Period	1	2	3	4	5	

3. Estimate the annual revenues anticipated from system operation and operating expenses and working capital needed in excess of that required for construction.

**COMCAST OF CENTRAL, NEW JERSEY
POLICY/CONTRACT FOR PUBLIC ACCESS
Revised June 29, 2009**

THIS AGREEMENT is entered into as of _____, 20__ (the "Effective Date") by and between Comcast Cablevision of New Jersey, LLC and _____

Responsibility for Program Content

Submission of programs for the public access channel is free of charge and free of content control by Comcast Cablevision of New Jersey, LLC (Comcast) subject to the policies herein. Responsibility for the content of program rests with the individuals and organizations submitting the programs. Comcast requires producers and other individuals submitting programs to sign and complete this program agreement prior to the cablecast of any program. This program agreement provides, among other things, for the program provider's indemnification of Comcast for any violations of Comcast policies of the law and requires a certification that such programming in fact does comply. All program agreements must include the name and address of the channel user. If the individual submitting a program is not the program's producer, the individual must also submit the name and address of the program's producer.

Public Access Requirements

The following requirements must ALL be met in order to be considered for public access.

- I. The person *or* organization submitting the tape must physically reside in one of the Comcast (of Central, Inc.) franchise areas.
- II. If submitted by an organization, it must be a NON-PROFIT organization.
- III. There must be NO solicitation of any kind during the program.

Address Verification

Program providers may be required to provide satisfactory evidence of their residence address and/or organization address. Satisfactory evidence will consist of one of the following.

- I. Driver's license
- II. New Jersey State photo non-driver ID card showing age and address.
- III. Utility bill in program provider's or organization's name along with an acceptable form of photo ID
- IV. Voter registration card along with an acceptable form of photo ID

Program providers are responsible for submitting changes in address in writing to Comcast along with satisfactory evidence.

Organizations Submitting Programs

Individuals submitting programs on behalf of organizations must submit a letter from the chief operating officer of the organization on company letterhead. The letter must indicate who within the organization will take responsibility for submitting programs. Any changes in this designation must be submitted in writing by the organization's chief operating officer.

Disclosure of Information Regarding Individuals Submitting Programs

Comcast shall maintain a record of the use of the public access channel that shall include the names and addresses of all persons using or requesting time on the channel. These records shall be available for public inspection for a minimum of two years.

Program Content Restrictions

The following restrictions apply to all public access programming. Programs may not contain:

Solicitation, advertising, bartering or promotion of commercial products, services or transactions;

Material that is slanderous, libelous, an invasion of privacy or made unlawful;

Material that of obscene;

Material concerning lottery information, gift enterprise or similar scheme;

Unlawful use of material requiring union residual or other payment (including but not limited to talent and crew);

Unlawful use of material that is copyrighted or subject to ownership or royalty rights, right publicity or other payment.

Commercial Programming Restriction

Commercial programming is strictly prohibited on the public access channel. As noted above, programs may "not contain solicitation, advertising, bartering or promotion of commercial products, services or transactions." Programs may not contain commercial telephone numbers except as noted below under "Programs Credits for Contribution of Goods and Services," nor may programs contain information about purchasing a product or service.

Representation of Authorizations

Channel users must represent that they have obtained all necessary permission for material and individuals appearing in their programs Channel users are required to provide satisfactory evidence of such permission upon request by Comcast.

Programming Requiring Content Warning

Comcast wants to provide a means of notifying parents or guardians when programming appears on the access channel that may be inappropriate for children. Comcast also wants to assist people in making informed viewing decisions while providing an opportunity for all forms of expression without censorship and in accord with existing laws. Programs containing such material will be preceded by a message advising viewer discretion. Channel users shall be responsible for notify Comcast if their program contains material requiring an advisory message.

As a reminder, it is a violation of Comcast policy to submit for cablecast any program that is obscene or otherwise made unlawful

Charging for Time on the Public Access Channel

Time on the public access channel is available free of charge. Channel users may not be require compensation from individuals in exchange for appearing on the public access channel. Furthermore, channel time may not be bartered or sold.

Minors Submitting Programs

Minors submitting programs will be required to have a parent or guardian sign a program agreement.

Program Credits for Contribution of Goods and Services

Programs may contain credit for individuals, businesses or other organizations that have contributed goods, services or funding used in the program production. Individual credits for such contributions are limited to fifteen seconds. Total credits for all contributions are limited sixty seconds. Credits may include *an* acknowledgement of the contribution made. Credits may not contain any advertising information. The following guidelines apply to all credits for contributors:

Credit must appear at either the beginning or end of the program. Credit may be aural, visual or both;

- Credit may include a logo;
- Credit may include a name, *address* and phone number;
- Credit may include a phrase describing the business of the contributor and the nature of the contribution;
- Credit may not contain any qualitative or promotional information.

Solicitation of Funds

Solicitation of funds during access programs is prohibited. Any program containing solicitation of any kind will be referred to the "leased access" channel.

Program Scheduling

Comcast will, to the best of its ability, provide channel time as requested on a first-come, first-served basis, subject to the policies and guidelines herein. Comcast will be guided in its scheduling decisions to ensure residents and organizations within our franchise areas will have the highest priority in using

the public access channels set aside for their benefit.

Limits of Liability

Comcast is not liable for any mistakes, omissions or interruptions in the cablecast of programs. Comcast is also not liable if the program or material submitted is damaged, lost or stolen while in its' custody except in the case of gross negligence on the part on Comcast resulting in damage or loss of submitted tapes. In case of gross negligence on the part of Comcast, liability is limited to the cost of replacing a blank videotape in exchange for tapes submitted for cablecast. Comcast strongly suggests not submitting master tapes.

Fill Tapes

In our continuing efforts to provide diverse programming our viewers, Comcast may request fill tapes or "fillers" from our program providers who have demonstrated their commitment to the Trenton/Central community. Comcast reserves the right to determine if said tape(s) clearly identifies with Comcast's mission statement. Fill tapes are programs that are scheduled to air in a vacant time slot. These tapes are scheduled at will, and staff is not obligated to inform producers when fill tapes will air.

Technical Standards

Comcast accepts the following tape formats: DVD, VHS or SVH. Comcast accepts only one program per videotape. Tapes must begin with 30 seconds of uninterrupted video prior to the start of the actual program pre-roll. This video can be any combination of color bars countdown or black only. Tapes should also have 60 seconds of black following the end of the program. Comcast has minimal technical standards that allow us to properly cablecast your videotapes. Submitted videotapes that have multiple control track breaks, noticeable video dropout, extremely low audio, *no* pre-roll and end-roll do NOT meet these standards. Tapes that are damaged and *are* hazardous to Comcast playback equipment will not air. Any videotape that does not meet Comcast's technical requirements will result in the producer receiving a warning letter. Any continual problem(s) will result in immediate program cancellation.

Videotapes must be delivered during designated tape drop-off hours and must be submitted a minimum of two days in advance of cablecast date.

Failure to Comply with Stated Policies and Applicable Law

Comcast will make every reasonable effort to inform individuals about

programming policies and prohibitions when a violation has occurred and to cure those violations. Comcast reserves the right to take any action with regard to program scheduling and transmission to comply with applicable law and to ensure compliance with these policies, including but not limited to, immediately suspending access rights.

Submitting false information in connection with scheduling a program will result in program cancellation and restrictions in scheduling future programs.

Failure to provide programs as scheduled will lead to program cancellation and restrictions in scheduling future programs.

Any questions or problems regarding guidelines and procedures, scheduling or broadcast can be directed to David Keenan at 732-652-2745 between the hours of 9 am to 5 pm Monday through Friday.
